

PhD in Integrative Medicine

Graduates of this degree program qualify for the credentials of “Dr.” and “Doctor”:

- **Authors**
- **Experts**
- **Lecturers**
- **Speakers**

“It's forward thinking; it's creative. Once I investigated it and did my research, I realized that it was perfect. It was an excellent idea. I'm living my purpose.”

Tracy Power

Faculty

Dr. Paul Drouin, M.D.
Dr. Amit Goswami, PhD
Dr. Joe Dispenza, PhD
Dr. Bruce Lipton, PhD
Dr. Yury Kronn, PhD
Dr. Patrick K. Porter, PhD
Lynne McTaggart
Christos Kyparissis, IMD, Ph.D.
Sherry Eshragi, DNM, Ph.D.
Bindu Babu, I-MD, Ph.D.
Bryant Meyers, M.A. Physics
Estelle Thomson, MA
Dr. Terry Oleson, PhD
Carla Burns, Ph.D.
Matthew Wood, MS
Gaetan Chevalier, Ph.D.

Curriculum

Video Courses

IM-701 - Theoretical Principles of Integrative Medicine
IM-702 – Quantum Consciousness and Evolution
IM-705 – Quantum Physics and Health
IM-706 - Healthcare Management

Dissertation Courses

ID-900 – Dissertation Methodology
ID-903 - PhD Dissertation Research Project

Degrees

PHD-IM - PhD in Integrative Medicine

Prerequisites

To be admitted into a PhD degree program at Quantum University, you must hold a degree in Alternative, Natural, or Integrative Medicine from Quantum University or be enrolled in a Doctorate in Alternative, Natural, or Integrative Medicine degree program at Quantum University.

Dissertation Mentor

Dissertation mentors are assigned to a student when they are ready to begin their dissertation project, after completing about 75% of their degree program. Dissertation mentors are responsible for guiding students through the process of creating, researching, writing, and grading their thesis work at Quantum University.

Dissertation Methodology

Quantum University offers a unique methodology course the demystifies the dissertation process. This course is designed to help you understand how to write a thesis or a dissertation by dividing a complex process into manageable steps that can be done one by one.

This course will guide you in your choice of a dissertation topic and help you determine the structure of your study, your objectives, who will participate in your study, what you will measure, and how to collect data.

You will write a dissertation of a minimum of 100+ pages for a PhD, 45-75 pages for a doctorate, and a thesis of 20-25 pages for a master's degree. You will understand what information you will need to gather, how to determine the support you will need, how to develop research protocols, and how to write your observations, conclusions, and abstract.

This outstanding program was created by our Senior Dissertation Mentor, Dr. Pat Knox, to walk you through the process and help you understand how to write a thesis or a dissertation that will be a true contribution to the future of integrative medicine.
